Asphalt Rake - Timber Handle 690mm

Product Images

Short Description

Timber Asphalt Rake with a 690mm handle.

Description

Professional wooden asphalt rake with a 690mm handle. This lightweight asphalt rake allows a better finish for the top coat.

The lightweight nature of wood reduces the tendency to dig into the asphalt like many steel rakes.

Jaybro supplies a wide range of site tools for builders, civil and construction contractors for a wide range of applications.
