

Plywood 17mm 1200x2400 Non-Structural

Product Images

Short Description

Plywood 17mm thick, in sheets measuring 1200 mm x 2400 mm

Description

Utility grade ply is ideal for hoarding, general construction and other non critical applications. Utility grade plywood is easily sawn and shaped with everyday tools enabling you adapt on site to the requirements of the job. It is rigid, stable, lightweight, and easy to install, meaning large areas can set up as hoarding relatively quickly. At 17mm thick this ply is strong and stable and available in sheets measuring 2400 x 1200 mm.

Features:

- Ideal for hoarding and general construction

- Each sheet measures 2400 mm x 1200 mm
- Thickness: 17mm
