
Insulated Soil Probe 1000V Certified 1200 mm

Product Images

Short Description

1005 volt certified non-conductive insulated soil probe. Manufactured in safety orange with a metal tip - 4ft / 1.2m

Description

Manufactured in safety orange for easy identification of electrical protection, this insulated soil probe is used by workers in the utilities sector, rail, councils and electrical contractors. With a 1220mm handle and traceable barcode, it is tested to exceed IEC 60900 & ASTM F1505 standards.

Suitable for any tradesman working with or near electricity, this fibreglass soil probe is ideal for locating buried pipes, underground tanks, utility lines and other underground services. It is designed for easy penetration and withdrawal even in harder ground. Each tool is etched with traceable test serial number.

Features:

- 1220mm / 4 ft handle
- 1005 volt certified non conductive
- Tested to exceed IEC 60900 & ASTM F1505 standards
- Manufactured in safety orange
- Each tool etched with traceable test serial number
- Indoor / outdoor use
- Handles marked with 1000V high voltage double diamond
- Suitable for mining, landscaping, construction, civil, tradesman, military, aerospace

Additional Information

CODE	82-IPL12
U.O.M	Each
Colour	Orange
Type	Insulated
Coating	Nuplaglas / Plastic
Length	1.2 m
