

Corflute Sheet, 1830 x 1220 x 2.5 mm, White

Product Images

Short Description

Corflute Sheet builders sheets suitable for a wide range of applications. Supplied in a industrial 1830 x 1220 x 2.5 mm size in white.

Description

Corflute, corrugated plastic or corriboard - sometimes referred to under the trade names of Polyflute, Coroplast, FlutePlast, IntePro, Proplex, Correx, Twinplast and Corriflute - is an extruded twin wall plastic sheet made from high-impact polypropylene. It is a lightweight and tough material, and is resistant to many oils, solvents and water. This makes it an ideal multi purpose protector on site.

Commonly used for protecting new flooring, windows, concrete and paint work, Corflute sheet is available with a 2.5 mm thickness. It can easily be cut with a utility knife, folded around structures for protection and laid between layers for protecting delicate panels.

Corflute sheet is commonly used for temporary signage too, and Jaybro prints a multitude of standard and custom signs on Corflute. It is light, cheap, strong and versatile!

- Sheet measures 1830mm x 1220mm
- 2.5 mm thick
- Plain white Corflute
- Pallet Qty: 500 sheets
