

Square Tacky Dust Mat, Pad of 30 sheets

Product Images

Short Description

Sticky dust mat layered in a pad of thirty 900 x 900 mm sheets, measuring 900 mm square. Tacky mats are particularly useful in sensitive or highly hygienic areas such as hospitals and computer rooms.

Description

Each tacky adhesive sheet captures dust and dirt particles and each layer will perform many times before it needing to be peeled away, revealing a fresh sticky mat underneath. The sticky floor mats reduce damage to carpeted areas and ensure minimal time is spent on cleaning when the job is done. The long lasting pad contains 30 thin peel off layers that are low profile, meaning they do not present a trip hazard. Tacky mats are particularly useful in sensitive or highly hygienic areas such as hospitals and computer rooms.

Features:

- An innovative multi-layered adhesive mat designed to protect access points to your sites and carpeted areas
- Suitable for industrial, commercial and residential sites
- Ideal for interior fit outs and finishing stages
- Removes dust and grit from shoes/boots
- Pack or Pad of 30 sheets
- Size: 900 x 900mm
