

Strapping Tensioner 19mm Steel

Product Images

Short Description

Manual steel strapping tensioner tool. The heavy duty construction will ensure this tool gets the job done right.

Description

Easy to use heavy duty manual steel strapping tensioner tool. Designed to suite Steel strapping from 12mm to 19mm. Ideal for operations onsite and the tool does not require access to a power source. This manual tensioner toll enables the user to tighten strapping around the load, holding the tension until a seal has been applied.

Jaybro stock a full range of steel strapping accessories including 19 mm strapping and seals, seal crimping tools and dispensers
