

Jack Air hose kit, 20m x 25 mm ID

Product Images

Short Description

25 mm ID Jack Air hose kit with claw fittings. Standard length coil available in 20m. Suitable for general compressed air and water applications.

Description

Jack Air Hose Kit, 20m x 25mm or 1" ID with Type A Claw Fittings. Sold in a standard length of 20 metres, or Jaybro can supply a custom length of hose complete with fittings for your requirements.

Suitable for heavy duty compressed air for example jackhammer and air compressor use, as well as for water. Ideal for civil and piling contractors.

Jaybro's yellow Jack Air hose has a temperature range of -25 degrees Celcius to +80 degrees Celcius, and is constructed from yellow SBR outer wall hose making it tough and resilient to heavy duty use on the building site.

Jaybro keeps up to 95% of our product on the shelf and in stock so we can deliver to you, fast!
