

Steel Fence Post Dropper 600 mm

Product Images

Short Description

Star Posts Steel 600mm. Sold only in increments of 10.

Description

Star posts made from Virgin R53 steel which means they are lightweight yet strong. R53 steel offers a reduced chance of rusting, meaning they last longer in the field. Star pickets, also known as steel fence posts, droppers, T-posts, Y-posts, Waratahs or star posts are commonly used to support various types of wire, barrier mesh, silt fence or wire mesh. The posts are driven into the ground to support a range of perimeter fencing types. Fix your fencing with our annealed tie wire using the holes down the length of the post.

Features:

- 600mm Steel Star post
- Sold in increments of 10 only
- Virgin steel resists rusting
- Use with annealed tie wire also available from Jaybro
- Weight: approximately 8kg per pack of 10
