

Anti-Climb Footpath Panel

Product Images

Short Description

Anti-climb footpath panel - 40mm diameter posts. Each panel measures 2.1m x 1.5m.

Minimum order quantity online is 4 panels.

Description

The Fortress Fencing footpath panel is an ideal option for applications where space is at a premium or where pedestrian access needs to be maintained. Using the same SMARTWELD technology as our temporary fencing range, this footpath panel complies with Australian Standards and is extremely light and durable. For narrow applications such as walkways or footpaths, this 1.5 metre long fence panel presents a great solution.

- Galvanized finish
- Includes nut and bolt in the centre
- Approved to Australian Standard AS4687
- Lightweight – just 15kgs

- Made with SMARTWELD for superior strength
- Panel measures 2100mm high x 1500mm long
- 40mm Tubes (32mm NB)
- 40mm OD Verticals & Horizontals
- Galvanised 72 Micron finish.
