

Hinge Clamp for Temp Fence Gate

Product Images

Short Description

Temporary fence hinge clamp for gated access points. Durable galvanised finish, a quick and easy solution to installing entry points in your perimeter fencing.

Description

Don't chance an incident occurring as a result of propping a regular fence panel open as a makeshift solution! We supply a Fortress Fencing Gate hinges, designed to support a standard fence panel or pedestrian panel to create an access point in your temporary fencing. A properly installed gate provide a more professional appearance, increase safety and allow for easy no-fuss access.

We stock temporary fence gates in both pedestrian access and vehicle access forms, the effective way to keep an area secure whilst remaining functional for foot traffic and vehicle entry.
