

# Traffic Cone - Class 1 Reflective Collar 900mm

## Product Images

## Short Description

---

Traffic Cone - Class 1 Reflective Collar 900mm tall. Jaybro can custom print your witches hats - please contact us for details.

## Description

---

Highly visible orange traffic cone with Class 1 Reflective collar. A tough, heavy duty rubber base prevents the cone from tipping over in the wind. At 900mm tall this cone creates a highly visible traffic delineation. Traffic cones, otherwise known as witches hats, channelizing devices or construction cones, are a great way to mark out hazards at your site, workplace, along a road or in a public area. Commonly used during road works to temporarily redirect traffic in a safe manner, traffic cones can prompt motorists to merge lanes or avoid temporary hazards.

- 900 mm high
- Blaze orange body for excellent visibility
- Class 1 Reflective Collar
- Heavyweight black base weighs 4.5kg for good stability
- Base measures 360mm square
- Custom printing available, please enquire

We print on our flexible 450mm reflective PVC traffic cones. Jaybro can print your logo or name on traffic cones - call us for pricing.
