

StrabaTex Bitumen Road Tape - 20m

Product Images

Short Description

StrabaTEX™ is a non-woven polyester geotextile, laminated onto a bitumen compound polymer. This road

tape is ideal for sealing joints in hot asphalt applications. It is resistant to high temperatures allowing hot asphalt to be laid directly onto the product. This self-adhesive road tape is available in widths of 166mm up to 500mm, in 20-metre rolls.

Description

StrabaTEX™ non-woven polyester geotextile road tape. Layered laminated onto a bitumen compound polymer for high performance. The ability to resist high temperatures allows hot asphalt to be laid onto the product. StrabaTEX™ Road Tape has exceptional adhesion to asphalt and concrete.

Its flexibility along with its self-adhesive composite membrane is a core feature. With high tensile strength as well it's puncture and heat resistance define it as the best solution in treating [highways](#), roads and bridges. Applied to treat cracking in road pavements. Road tape is also used to seal concrete culvert joints.

Sealing joints with StrabaTEX™ is quick and easy! It doesn't involve special tools and requires little cleanup. Increase the life of roadways and other pavements by preventing water entry. Water entering through cracks and joints can lead to the undermining of the base.

StrabaTEX™ Bitumen Road Tape is available to purchase online from [Jaybro](#)

Used on civil and infrastructure projects for road and bridge applications. This road tape exhibits exceptional adhesion to concrete and bitumen surfaces. With a proven record of treating cracking in road pavements. Also used for sealing concrete culvert joints, and during bridge construction.

BENEFITS

- Durable self-adhesive tape that can be applied quickly and easily by hand
- Installation doesn't required specialised tools
- A long-term solution for waterproofing construction joints
- Polyfabrics products have a proven history of performance on major projects

APPLICATIONS

- Pavement Joint Sealing
- Basement Waterproofing
- Concrete Crack Treatment
