

Rotoflex 150cm ZIP Composite Wheat

Product Images

Short Description

The unisex safety boot is designed to provide reliable protection and comfort for those working in hazardous environments. With a 150cm (6") height, it offers ample coverage to safeguard the ankles and lower legs. The wheat nubuck upper is water-resistant, ensuring feet stay dry even in wet conditions. The TPU sole delivers superior traction and durability, while the composite toe cap protects against impact and compression. These boots are also electrical hazard resistant, providing additional safety measures in environments where electrical currents may be present.

Description

Stay safe in hazardous environments with these 150cm unisex safety boots. Featuring a water-resistant nubuck upper, TPU sole, composite toe cap, and electrical hazard resistance.
