Discover ultimate bike parking convenience with our surface mount bike hoops! Available in Stainless Steel (304) or Galvanised, measuring 800x400mm, with a 48mm pipe diameter and a sturdy 150x6mm plate. Securely park your bikes with ease and style!

Description

Introducing our premium surface mount bike hoops, the epitome of durability and functionality for your cycling needs! Crafted with utmost precision and available in two top-notch materials, Stainless Steel (304) or Galvanised, these bike hoops are designed to withstand the harshest of weather conditions while maintaining their polished appearance for years to come. Measuring a generous 800x400mm in size, these hoops provide ample space for securely parking bicycles of various sizes. The sturdy 48mm pipe diameter ensures excellent support and stability, giving you peace of mind knowing that your bikes are safe and protected from accidental tipping or damage.
