Short Description

Mearin Plus F200 200mm GRP shallow channel 100mm deep C/W galvanised heelguard grate, class B, CLIPFIX

Description

The Mearin Plus shallow channel is a lightweight, durable, and easy-to-install drainage channel that is ideal for use in areas with limited ground clearance. It is made of GRP (glass-reinforced plastic), which is resistant to chemicals, salt, and oils. The Class B heelguard grate provides a high level of safety, while the Clipfix system makes it easy to install and remove the grate. Features Shallow design for where construction clearance is limited Made from lightweight and durable GRP material Class B grate to AS3996-2019 Versatile for a variety of applications Excellent value for money Benefits: Easy to install and maintain Strong and durable Eco-friendly Corrosion resistant channel Excellent value for money Applications Car Parks Patio's Driveways Train Stations Other Area's where construction clearance is limited
