Short Description

MEA Drain Supreme LC2000 200mm CI Edge Shallow Polymer Concrete Channel 130mm Total Depth C/W ductile iron longitudinal heelguard grate, class E , PROFIX

Description

The MEA Drain Supreme Shallow CI Edge Channel with Ductile Iron Heelguard Class E Grate is a durable and reliable drainage solution for road infrastructure projects. It is made of high-quality polymer concrete and features a cast iron edge rail for added strength and longevity. The Class E ductile iron heelguard provides a sleek pedestrian safe finish. The system includes the profix rapid locking system to lock and prevent grate movement

Features:

- Shallow depth
- Made of high-quality polymer concrete for durability and longevity
- Cast iron edge rail for added strength and corrosion resistance
- Ductile iron heelguard grate
- Class E grate

Benefits:

- Provides efficient drainage of stormwater and other liquids
- Helps to protect against flooding
- Shallow design for areas with limited construction depth

Applications:

- Motorways and road construction
- Petrol stations and driveways
- Commercial and industrial properties

Additional Information

CODE	ACP-154612K1
U.O.M	Each
Material	Polymer Concrete
Channel Depth	130mm
Channel Width	200mm
Range	Supreme
Channel Length	1000mm
Grate Safety	Heelguard
Load Rating	Class E
Locking Type	Profix
Grate Material	Ductile Iron
Shallow/Discrete	Shallow
Channel Meterial	Polymer Concrete
Swatch	no_selection
