Short Description

200mm Clear Opening CI Frame 2m C/W Ductile Iron Slotted Class E Grate Profix

Description

The MEA DRAIN Ductile Iron CIF Trench Grate and Frame System with Ductile iron slotted grate is a robust, wear-free design offering maximum reliability. It is specifically designed for applications where extremely high wheel loads are present, such as car parks, loading docks, and industrial areas. Rated to loading class E. The system is made of durable ductile iron, which is resistant to corrosion and heavy impact. The grate is designed to snap securely into the frame using the Profix rapid locking system preventing movement under extreme conditions. Features: • Made of durable ductile iron • Class E to AS3996-2019 • Resistant heavy impact • Grate snaps securely into frame edge using the Profix rapid locking system • Cast-in-situ design Benefits: • Strong and durable • Low maintenance • Safe and reliable • Easy to install • Versatile and adaptable Applications: • Airports • Loading docks • Industrial areas • Ports and Docks

Additional Information

CODE	ACP-200CIF-2MK1
U.O.M	Each
Channel Width	200mm
Range	CIF
Channel Length	2000mm
Grate Safety	Bicycle Safe
Load Rating	Class E
Locking Type	Profix
Grate Material	Ductile Iron
Swatch	/0/8/08_1_mea.jpg.tmp
