Short Description

Mea Access S1000 100 Galvanised Edge Inline Sump

Description

The Mea Access Z1000 100 Galvanised Edge Inline Sump is a durable and easy-to-install sump for the Mea Access Z1000 100 Galvanised Drainage Channel. It is made of high-quality Stainless Steel, which is known for its strength, durability, and resistance to corrosion. The sump is designed to collect and discharge water from the drainage channel. It has a large capacity and a built-in leaf trap to prevent debris from entering the sump. The sump is also easy to clean and maintain, with a removable grate (sold separately) and a sludge outlet.
