
Mea Access Polymer Concrete Drainage Channel with Class A Galvanised Slotted Grate

Product Images

Short Description

Mea Access Z1000 100 GAL Edge Polymer Channel 120mm total depth C/W Gal Steel slotted Grate CI A

Description

The MEA Access Polymer Concrete Drainage Channel with Class A Galvanised Slotted Grate is a versatile and durable drainage solution that is ideal for a wide range of applications. It is made of high-quality MEA Polymer concrete, which is known for its durability, strength, and resistance to chemicals and weathering. The Class A Galvanised Slotted Grate is made of high-quality galvanised steel and is designed for pedestrians and bicycles. It is also easy to remove and clean, making it a low-maintenance solution. The MEA Access Shallow Polymer Concrete Drainage Channel with Class A Galvanised Slotted Grate is easy to install and maintain, and it has a long service life. It is ideal for use in a wide range of applications, including:

- Driveways
- Patios
- Walkways
- Gardens

Features and benefits:

- Narrow inlet slot for safety
- Made of high-quality MEA Polymer concrete
- Class A Galvanised Slotted Grate for durability and low maintenance
- Easy to install and maintain
- Long service life
