
Mea Access Shallow Polymer Concrete Drainage Chanel with Class D Galvanised Heelguard Grate and Frame

Product Images

Description

The MEA Access Shallow Polymer Concrete Drainage Channel with Class D Galvanised Heelguard Grate is a versatile and durable drainage solution that is ideal for a wide range of applications. It is made of high-quality MEA Polymer concrete, which is known for its durability, strength, and resistance to chemicals and weathering. The drainage channel has a shallow profile, making it ideal for use in areas where space is limited. It also has a narrow inlet slot, which makes it safe for high heels and Bicycles. The Class D Galvanised Heelguard grate is made of high-quality galvanised steel and is designed to withstand light vehicular traffic. It is also easy to remove and clean, making it a low-maintenance solution. The MEA Access Shallow Polymer Concrete Drainage Channel with Class D heelguard Grate is easy to install and maintain, and it has a long service life. It is ideal for use in a wide range of applications, including:

- Driveways
- Carparks
- Walkways
- Big box retail
- Sports fields

Features and benefits:

- Shallow profile for tight spaces
- Made of high-quality MEA Polymer concrete
- High Heel safe
- Easy to install and maintain
- Long service life
