

Carpenters Pencil Timber - Medium

Product Images

Short Description

Carpenters Pencil Timber for use in many applications for builders and contractors.

Description

Carpenter pencils are suitable for marking on rough surfaces, such as timber, concrete and stone. Used by builders and contractors onsite for measuring, marking and writing notes.

The shape of the pencil and lead density ensures a legible line is marked with a straight edge. Marked lines are clear and easy to follow with a saw blade.

Medium density lead pencil that is durable and very easy to sharpen.
