Short Description

Hydration Backpack 2.5L - Hi Vis Yellow

Description

Cut down time wasted refilling drink bottles at the water cooler and increase productivity with this comfortable 2.5 litre hydration backpack from THORZT.

Featuring a stylish, slimline design, this 2.5L pack fits comfortably on the worker's back, providing ready access to hours of cold water or electrolyte. Particularly useful for workers who are regularly on the move or spend long periods of time away from the lunchroom or site office, or away from easy access to water.

The backpack comes complete with a generous 2.5 litre bladder that has a large fill hole so you can add ice cubes if desired. V-Form retro reflective strips on the outer of the pack gives extra safety in low light conditions

Fully adjustable shoulder straps make it comfortable for all shapes and sizes, and velcro fastening on the bladder pouch makes for easy refill access.

- 2.5 litre capacity bladder made from BPA-free TPU (thermoplastic polyurethane)
- Fluoro yellow outer with reflective strips for added visibility
- Automatic bite valve includes cover attachment to keep it clean and hygienic
- Easy access tube clip tucks tube neatly out of the way when not in use
- Made from lightweight polyester
- Quick release safety buckle to avoid snag hazards
- Large 55 mm diameter filling port - big enough to add ice
- Neoprene insulated hydration tube
- Slimline design keeps the pack well fitted and out of the workers way
