

Cable Pulling Lubricant 1 Litre

Product Images

Short Description

PROTEK CL Cable Pulling Lubricant 1 Litre. Also sold in 20l containers

Description

Ideal lubrication for pulling cables through conduit in underground environments, civil and construction projects and much more.

Suitable for most cable insulation and conduits, PROTEK cable lube is used widely in electrical, telecommunications, industrial & electrical supply industries.

PROTEK CL lube is known to be effective for the placement of large cable and long pulls. A Code C lube that has a light blue appearance, is non-toxic and non-flammable.

Extremely easy to use with excellent lubricant for everyday electrical and communication cable pulling.
