

Short Description

25 mm ID Mine Air hose kit with claw fittings. Standard length coil available in 20m. Suitable for heavy duty compressed air and water applications in mining and tunneling operations.

Description

Mine Air Hose Kit, 20m x 25mm or 1" ID with Claw Fittings. Sold in a standard length of 20 metres, or Jaybro can supply a custom length of hose complete with fittings for your requirements.

Suitable for water as well as heavy duty compressed air for example jackhammer and air compressor use - ideal for mining and tunneling contractors.

Jaybro's yellow Mine Air hose has a temperature range of -25 degrees Celcius to +80 degrees Celcius, and is constructed from yellow SBR outer wall hose making it tough and resilient to heavy duty use in tunneling and similar applications.

Jaybro keeps up to 95% of our product on the shelf and in stock so we can deliver to you, fast!

- 25 mm ID / 1" ID
- 37 mm OD
- Working temperature -30 degrees Celcius to +80 degrees Celcius
- Rated to working pressure of 20 bar / 300 psi
- Yellow SBR construction
- Suitable for air and water delivery up to 300psi
- Fitted in-house with claw fittings.
- Contact us if you require different fittings such as Travis, Bauer Camlocks, Strainers and claw type fittings.

Additional Information
