Product Images

Short Description

TEC Mat® Jute Matting 750gsm 6/Slit - 1.83m x 25m Ideal for weed and erosion control, this jute matting measures 1.8m x 25m.

Description

TEC Mat® Jute Matting 750gsm 6/Slit - 1.83m x 25m is an organic product which assists in weed and erosion control. It is an environmentally friendly way of protecting young trees and shrubs by retarding growth of competing weeds, and reducing the need to use damaging herbicide.

Due to its 3 dimensional structure, TEC Mat® Jute Matting 750gsm 6/Slit allows both air and water to pass through. This creates a moist and breathable environment conducive to plant growth. This matting is ideal for weed and erosion control and is 100% biodegradable.

Applications:

- Weed control
- Slope protection
- Coastal areas
- Erosion control

Features:

- 1.8m wide
- 25m long (45.75m2)
- Fabric weight 750gsm
- Tight weave jute
