
2" (50 mm) Ball Valve - 3 Piece Full Port Win United

Product Images

Short Description

WIN UNITED 2" (50 mm) Three piece full port ball valve, 316 Stainless steel construction. Easy open and shut valve action, with on/off labels clearly marked on the handle. 1000PSI Working Pressure, F&F BSP Ends.

Description

The 3 piece stainless steel ball valve is designed to enable of block off flow with a quarter-turn of the valve.

The ball valve is manufactured with a hollow, perforated and pivoting ball to control flow. Capable of handling up to 1000 PSI, the valve is open when the ball's hole is in line with the flow, and easily closed with a quarter turn.
