# EROmasta Seed Mat Turf Reinforcement Mat

## Product Images

---

## Short Description

---

EROmasta™ Seedmat TRM is available in 3 or 5 layers, in 2 x 25m rolls.

## Description

---

EROmasta SeedMat is a synthetic turf reinforcement mat, designed and engineered to protect soil from erosion and provide an environment that encourages rapid vegetative root development. It is a three-dimensional tri-layered mat manufactured from polyethylene. It is constructed using a base of high tensile layers of net bonded to upper layers to form a cusped surface designed to trap soil particles and seeds.

EROmasta SeedMat creates an immediate and long-term defence against natural erosion due to wind, rain, and flooding. Top soil and seed is applied on top of EROmasta SeedMat Synthetic erosion mats and blankets have become a practical choice for cost-efficient, immediate and permanent solutions to help stabilisation and control erosion. EROmasta products offer ecologically sensitive substitutes to alternate solutions.

### Applications:

- Embankments
- Stormwater Channels
- Easements
- Landscaping

## Specifications

Mechanical Properties	Test Method	Units	TRM3	TRM5
Tensile Strength	ASTM D6818	kN/m	2.6	3.5

<b>Mechanical Properties</b>	<b>Test Method</b>	<b>Units</b>	<b>TRM3</b>	<b>TRM5</b>
Thicknes	ASTM D6525	mm	12.5	23
Mass/Unit Area	ASTM D6566	g/m2	329	447
UV Resistance 5000hrs	ASTM D4355	%	80	90
Resiliency	ASTM D6524	%	80	80
<b>Performance Properties</b>				
Permissible Velocity (Vegetated)	Flume test 1,2	m/s	3.9	6.2
Sheer Stress (Vegetated)	Flume test 1,2	Pa	365	480
Maximum Gradient	-	L:H	1:10.6	1:0.8
<b>Physical Properties</b>				
Material Polymer	-	-	Polyethylene	Polyethylene
Netting Layers	-	-	3	5
Void Ratio	-	%	>85	>90
Colour	Visual	-	Green	Black
Roll width	-	m	2	2
Roll length	-	m	25	25
