

Pro Choice HMTPM Maxi Mask 2000 Half Face Mask Respirator

Product Images

Short Description

Thermoplastic elastomer half face respirator mask. Suitable for applications including mining, construction, rigging, agriculture, painting, chemical and lab work.

Ask Jaybro about [respirator fit testing](#) in your area.

Description

The Pro Choice Maxi Mask 2000 is a simple, comfortable half face respirator. With thermoplastic rubber face piece for an excellent seal, it also features retroreflective tape for improved visibility.

The design suits most face shapes and features a contour moulded nose area for easy fitting when worn with other PPE such as glasses and goggles. This mask is also able to be worn under most welding helmets.

The low breathing resistance valve reduces heat and moisture build up, increasing wearer comfort. Cartridges are easy to replace and fit easily onto the connection points.

Use with:

- Pro Choice cartridges and filters

Features:

- Thermoplastic rubber for an effective fit to most face shapes
- Fully adjustable four point cradle suspension ensuring an effective facial fit
- Low profile angle filter design for minimum visual impairment
- Contour moulded nose for fit with glasses and goggles
- Low resistance exhalation valve - to reduce heat and moisture build up
- Able to be worn under most welding helmets
- Quick and easy filter cartridge connection
- Approved to AS/NZS 1716:2012
- Carton Qty: 20
