

3M 5935 Particulate Filters P3

Product Images

Short Description

3M Particulate Filters 5935 for protection against particles dusts, mists, and fumes such as sanding, grinding and more. Suitable for use with 3M respirators. Provides protection against particulates (P3) including those containing oil. To be fitted with the 3M 6000 Series Cartridges/Filters and the 3M 501 Retainer. Supplied as a pair.

Description

3M particulate filters for half and full face respirators. Note that higher P3 protection factors only achieved with a 3M Full Face Respirator, otherwise P2 protection level is achieved when worn on a 3M Half Face Respirator. These P2/P3 particulate filters provide protection against certain particles, dusts, fumes and mists such as mist droplets from spraying. They are typically used in applications such as sanding, grinding, cutting, drilling metal, masonry, wood, concrete and more.

Features:

- Protects against solid and liquid particles
- Complies with AS/NZS 1716:2012
- Provides protection against particulates (P3) including those containing oil
- Use with the 3M 6000 Series Cartridges/Filters and the 3M 501 Retainer
- Supplied as a pair
- This cartridge/filter, when used for protection against the contaminants as specified, is capable of providing the following protection levels:
- With a 3M 6000/7500 Series Half Face Respirator: for particles, for airborne concentrations up to 10 times the Workplace Exposure Standard (WES)
- With a 3M 6000/7800 Series Full Face Respirator: for particles, for airborne concentrations up to 100 x WES

Additional Information

CODE	RP3M5935
U.O.M	Pair
Brand	3M
Filter Class	P3
