

3M 6035 Rectangular Particulate Filter P2/P3, Solid Case Style

Product Images

Short Description

P2/P3 Rectangular Filter to suit 3M 6000 Series respirators. Supplied as a pair.

Description

The 3M P2/P3 respirator filter is suitable for use with 3M 6000/7500 Series Half Face Respirators and 3M 6000/7000 Series Full Face Respirators. This cartridge is ideal for protection against certain particles, dusts, mists and fumes such as sanding, grinding, cutting, drilling metal, masonry, wood and concrete, as well as carrying out lead or mould remediation. Also for certain asbestos tasks (refer to local Government guidelines). It is ideal if requiring a protective casing to deflect sparks, splashes or to wipe down. Note P3 protection can only be achieved if using with a full face mask.

This filter protects against Solid and liquid particles. This particulate filter is housed in a solid top plastic case that reduces the chance of premature caking, clogging, or soiling with dirt, grime, water or dust.

Features a 3M Bayonet Connection System ensuring precise and secure locking.

Protection against:

- P2/P3 protection
- Solid and liquid particles

Use with:

- 3M 6000/7500 Series Half Face Respirator
- 3M 6000/7000 Series Full Face Respirator

Features:

- Complies with AS/NZS 1716:2012
- Solid top design reduces the chance of premature caking, clogging, or soiling with dirt, grime, water or dust
- Protective casing aids decontamination practices
- Temperature resistant cover protects filter media from heat, sparks or physical damage
- Patented bonded web technology has more surface area than many standard filters which helps lower breathing resistance making it more comfortable to use
- 3M Bayonet Connection System ensures precise and secure locking
- Low profile and well balanced twin filter design

The 3M 6035 cartridge filters attach to 3M 6000 Series half and full face respirators to provide gas and vapour protection. All cartridges and filters are tested to AS/NZS 1716.

The 3M Cartridges are lightweight, well balanced when fitted to a mask, provide excellent field of vision as a result of the unique rectangular shape and ensure precise and secure locking. You can also attach 3M Dust/Mist Filter 5125 to your cartridges with the 3M Filter Retainer 501 to add particulate protection. Offering low breathing resistance, the cartridges provide protection against P2 / P3 particulates. The protective casing helps deflect sparks and splashes of liquid. The casing also assists in environments where decontamination is required.
