

Window Film 1220mm x 100m

Product Images

Short Description

Window Protection Film measuring 1220 mm wide x 100m roll. This builders window protector offers a barrier against scratches and damage during construction and fit out.

Description

A blue tinted window protection film with a low tack adhesive coating on one side.

This builders window film protects glass, mirrors and similar surfaces from paint or sealant splashes. Ideal for protection during painting, spraying or installations, this cost effective film is UV treated and will not deteoriate in direct sunlight. Ideal for use for up to six months, it is 50 microns thick offering light privacy as well as protection from minor scratches or paint splash.

It is easy to apply - simply roll it out onto the desired surface. The blue tinted window plastic makes it easy to see and remove when the job is done, and the 100 metre roll is an ideal size for many types of projects and after trades.

Features:

- Window protection film will protect valuable glass surfaces during construction or renovations
- UV Resistant for up to 6 months
- Medium high adhesive strength - 370-430g/50mm
- Cost effective protection for easy clean up after construction
- Customised adhesive that will not leave any glue residue when removed
- Thickness: 50µm
- Colour: Blue
