

Machinery Safety Sticker - Unleaded 160 x 120mm

Product Images

Short Description

Vehicle or machinery sticker, unleaded petrol, measures 120 x 160 mm

Description

This 'unleaded' machinery safety sticker measures 120 mm x 160 mm and is made from quality long lasting vinyl.

Self-adhesive vinyl labels are ideal for outdoor heavy duty permanent use. Simply peel off the backing paper and apply to any clean, dry, smooth surface. Machinery safety stickers are supplied in packs of 5. Other types are also available in this range including 'diesel', 'hydraulic oil', '2 stroke', and 'left hand drive'.

Additionally, Jaybro stocks a wide range of safety sticker sets for heavy plant and equipment such as excavators and forklifts. These stickers are applied near any dangerous pinch points, crush zones and areas where musculo-skeletal injuries are a risk. Ensure your team is safe on site and that you comply with workplace health and safety legislation by labelling all your machinery. This ensures that staff that are using the equipment are aware of the risks each time they get into the cab or operate the machinery.
