Traffic Cone Orange, 700 mm

Product Images

Short Description

700mm orange non-reflective traffic cone. Custom printing is available - brand your business and reduce the chance of theft by printing your logo or business name on your traffic cones. Contact Jaybro for pricing.

Description

Highly visible orange traffic cone. A tough, heavy duty rubber base prevents the cone from tipping over in the wind. At 700mm tall this cone creates a highly visible traffic delineation. Traffic cones, otherwise known as witches hats, channelizing devices or construction cones, are a great way to mark out hazards at your site, workplace, along a road or in a public area. Commonly used during road works to temporarily redirect traffic in a safe manner, traffic cones can prompt motorists to merge lanes or avoid temporary hazards.

- 700 mm high
- Blaze orange for excellent visibility
- Heavyweight base for stability
- Custom printing available, please enquire
  We print on our flexible 700mm reflective PVC traffic cones. Jaybro can print your logo or name on traffic cones - call us for pricing.
