

Foil Tape - Standard Aluminium

Product Images

Short Description

Standard foil tape, 48mmx50m, aluminium

Description

Standard Foil Tape. Designed to provide better performance than duct tape in cold weather applications and condition. Our foil tape provides exceptional strength and flexibility combined with high bonding properties.

When applying foil tape, ensure the tape follows the contours of the surface of which its applied. Ensure not to over stretch the or twist the tape when applying for best results. For the best result, press or rub the tape down with a firm and even amount of pressure. Use a rubber scrapper or squeegee to get the greatest adhesion.

- Grade: Standard
- Size: 48mm x 50m
- Carton Qty: 24 rolls

Additional Information

CODE	22-ALU
U.O.M	Roll
Material	Aluminium
Package Quantity	24
Width	48 mm
Length	50 m
