

Replacement Beacon Globe - H1 12V

Product Images

Short Description

Individual H1, 12v replacement globe to suit not only our range of Megabrite rotating beacons lamps but will suit a wide range of major brand beacons that use H1 globes.

Description

Replacement 12 Volt H1 globe to suit a range of leading brand rotating beacons.

A H1 globe is a halogen lamp. Halogen bulbs are widely used in the automotive industry for headlights, but are also commonly found in related products such as rotating vehicle beacons, fog lamps and more.

H1 bulbs have been developed to provide a long life, designed to handle use in day and day out. This bulb suits rotating traffic beacons such as the Megabrite range available from Jaybro.
