

Steel Fence Post 1300mm (Droppers)

Product Images

Short Description

1300mm steel star post / dropper made from mild steel, making them lightweight yet strong and resistant to rust. **Sold in increments of 10 only.**

Description

Steel fence posts are ideal for soft, sandy ground, asphalt, or paved areas. Star posts are made from mild steel (200 grade) which means they are lightweight yet strong and resist rusting.

Star pickets, also known as steel fence posts, droppers, T-posts, Y-posts, Waratahs or star posts are commonly used to support various types of wire, barrier mesh, silt fence or wire mesh. The posts are driven into the ground to support a range of perimeter fencing types. Fix your fencing with our annealed tie wire using the holes down the length of the post.

Features:

- 1300 mm Steel Star Post
- Sold in increments of 10 only
- Weight: approximately 22kg per pack of 10
