

Steel Fence Post 2400mm (Dropper)

Product Images

Short Description

2400mm steel star picket / droppers. **Sold in increments of 10 only.**

Description

Star posts made from Virgin R53 steel which means they are lightweight yet strong. R53 steel offers a reduced chance of rusting, meaning they last longer in the field. Star pickets, also known as steel fence posts, droppers, T-posts, Y-posts, Waratahs or star posts are commonly used to support various types of wire, barrier mesh, silt fence or wire mesh. These 2400 mm high posts are driven into the ground to support a range of perimeter fencing types. Fix your fencing with our annealed tie wire using the holes down the length of the post.

Features:

- 2400mm Steel Star post
- Sold in increments of 10 only
- Virgin steel resists rusting
- Use with annealed tie wire also available from Jaybro
- Weight: approximately 32kg per pack of 10
