

Star Pickets 900mm

Product Images

Short Description

Get 900mm steel star posts/droppers made from lightweight yet durable mild steel. Rust-resistant.

Sold in sets of 10 for your convenience.

Description

Star posts made from Virgin R53 steel which means they are lightweight yet strong. R53 steel offers a reduced chance of rusting, meaning they last longer in the field. Star pickets, also known as steel fence posts, droppers, T-posts, Y-posts, Waratahs or star posts are commonly used to support various types of wire, barrier mesh, silt fence or wire mesh. These 2400 mm high posts are driven into the ground to support a range of perimeter fencing types. Fix your fencing with our annealed tie wire using the holes down the length of the post.

Features:

- 900mm Steel Star Post
- Sold in increments of 10 only
- Manufactured from mild steel (200 grade)
- Weight: approximately 14kg per pack of 10
