

Fence Post / Reo Bar Safety Caps - 100 Pack

Product Images

Short Description

Safety caps to suit most steel fence posts, droppers, star pickets, Waratah posts and reo bar. 100 per pack.

Description

These highly visible yellow plastic bar caps greatly decrease the chance of injury from exposed star pickets, posts and reo bars.

Used extensively on and around civil and construction work sites, star pickets pose a hazard to workers and

can result in injury. A safer option is to cap off star pickets, posts or bars with picket caps. These rounded post caps are designed to provide a visual warning and protection from sharp edges on protruding steel fence posts, star pickets, Waratah posts and Reo bars.

Star picket caps are removable and reusable, and therefore an economical safety measure. They are also rugged and resistant to heavy duty use. Supplied as a pack of 100 caps, these safety caps fit posts from 12mm diameter up to 20mm diameter.

- Round type - visual warning and protects from sharp edges for starter bars or steel fence posts
- 100 caps per bag
- Weight: approximately 2.85kg per bag
