

# Hi-Intensity Reflector Line 25m

## Product Images

## Short Description

High intensity reflector line, 25m with premium Class 1 reflective tape.

## Description

---

This reflector line features high intensity premium Class 1 reflective tags on a rope. The 25 metre length is ideal for stringing between star pickets, posts, T-top bollards, or fence lines that need extra visibility on site. Additionally, it can be used to demarcate no go zones or the edge of a worksite, or installed around stationary plant and equipment, piles of debris, and other temporary site hazards. The rectangular reflective tags move in the breeze, catching and reflecting light. This hazard tape is suitable for both day and night use.

- Rectangular reflective tags on a rope
- Provides an ideal hazard warning tape for both day and night
- Class 1, hi-intensity reflector
- Size: 25m long
- Weight: approx. 300g per roll
