

White Acrylic Road / Line Marking Paint 4L

Product Images

Short Description

Acrylic road / line marking paint, 4L White

Description

Ultraline acrylic road and line marking paint is manufactured from top quality pigments and resins which guarantees longevity once on the ground. The big 4L tin is ideal for long marking jobs. This white solvent based, lead free linemarking paint offers very good resistance to both vehicular and pedestrian traffic. Acrylic resin ensures superior UV resistance, and its high opacity equals economical linemarking operations.

Methods of application include airless spray, air spray, roller and brush. Ultraline Thinners are recommended for viscosity adjustment if necessary, and for wash up. Supplied as a 4L tin.
