

Drop-On Glass Bead - Class B

Product Images

Short Description

Class B drop-on glass bead, 20 kg bag

Description

Drop on glass beads are used to add an immediate shine to newly laid road marking lines. Class B HR Drop on type beads are coated for reflectivity and durability.

By increasing the visibility and retroreflectivity of pavement marking lines, they thereby increase safety performance of pavement markings. Only road markings that contain Glass Beads are clearly visible at night.

- Conforms to AS 2009
- Conforms to APAS0042 Glass Beads, Heavy Metal Content
- 20kg bag
- Dual Silane and Silicone Coated
- Engineered to deliver superior performance on the road
- HR High Reflective
