
Line Marking Machine, 4 Wheel

Product Images

Short Description

Line marking machine, 4 wheel, to suit Ultracolour line marking paints available from Jaybro, as well as other linemarking paint brands. Ideal for marking large areas with linemarking paint, such as carpark, concrete areas, grass and more.

Description

This linemarking trolley is ideal for marking car parks, asphalt and concrete areas, grass and more. It has an easy to use design and can be loaded using a side or front spray setup. Simply use the trigger handle to paint lines easily. This unit has convenient paint storage so you can fit extra cans to swap out on the go. To use, simply place the Ultracolour line marking paint upside down in the holster, after fitting the special line marking nozzle that is supplied with your paint. Then simply pull the trigger to mark your lines.

Features:

- For use with line marking paint for car parks, grass, concrete, workshops, factories and more
- Suits Ultracolour line marking paint available separately from Jaybro
- Steel construction is tough and hard wearing
- Easy to load paint cans
- Holds two extra paint cans
- Paint not included
