
Standard Clear Safety Goggles

Product Images

Short Description

Cost effective eye protection. These safety goggles provide a wide vision for the wearer in a traditional goggle design with clear frames. Fitted with top and bottom vents to reduce fogging and increase wearer comfort. The adjustable head strap will ensure a perfect fit every time. Protective eyewear surrounds the eyes preventing injury from many particulates, fluids and chemicals. Featuring an easy to adjust head strap for a perfect fit and top and bottom vents to prevent fogging, these goggles are used in a wide variety of industries including manufacturing, laboratories, painting and assembly lines and more.

Description

Basic wide vision economy safety goggles. Protective eyewear surrounds the eyes preventing injury from many particulates, fluids and chemicals. Featuring an easy to adjust head strap for a perfect fit and top and bottom vents to prevent fogging, these goggles are used in a wide variety of industries. Ideal for manufacturing, laboratories, painting and assembly lines, these basic goggles are worn for protection when using power tools like drills, saws and hammers. Designed to provide medium impact protection from splashes and flying particles that can damage the eyes.

Many types of goggles and safety glasses are available from Jaybro. Protect your vision and the vision of your staff from impact, dust, debris, chemicals and more.

Our Economy range of safety goggles are durable, holding up under the toughest conditions.

Features:

- Clear lens
- Vented
- Adjustable head strap
- Excellent field of vision
