

2m Shock Absorbing Lanyard

Product Images

Short Description

Single shock absorbing lanyard with snap hooks at both ends, measures 2m long.

Description

2 metre long single leg shock absorbing webbing lanyard with hardware. This extended length energy absorber ELEA is designed to protect a worker of up to 160kg including tools and equipment. Combining a single leg webbing lanyard plus drop forged lanyard hardware, it has a unique stitch pattern (with 423 stitches) resulting in a strength that matches the lanyard's webbing strength. Because it is engineered to match the webbing strength, this ensures no weak point in the harness assembly.

Features:

- Webbing tenacity equals 33kN
- THETA stitch pattern (equals 3300kg strength)
- SAIG 5 Tick Certified and approved to AS/NZS 1891.1
- Contrast stitch thread colour for easy inspection
- Drop forged D Transition point doubles as a spare leg stowage point
- Includes snap hooks at both ends
