

Alloy Screw Gate Karabiner

Product Images

Short Description

Everest Solutions screwgate karabiner for height safety work. Rated to 22kn.

Description

This Linq alloy screw gate karabiner is rated to 22kN. It complies with the requirements of AS/NZS1891.1 ensuring peace of mind when working at height. The traditional screw gate style ensures extra protection by screwing a fitting over the closed gate so that it cannot accidentally open. The 18mm opening allows for easy clip on of harnesses and lanyards.

Use with Jaybro's range of Linq height safety equipment including lanyards, harnesses and more.
