Short Description

Confined Space Entry Kit - 3 Way Winch System 7ft (15m SWL 100Kg)

Description

The 3 Way Inertia Reel/Recovery Winch is a combination unit that operates as a normal inertia reel, but can also be used as a raising and lowering winch. This enables the user to work at ease in "Free Movement Mode" and also be able to be winched out in a rescue application. Can be fitted to davit arm or tripods.

- Winch for rescue use only
- Includes : 7 ft. Lightweight Tripod and Tripod Bag, Full Body Confined Space Harness, Spreader Bar, 2x Karabiners, 3 Way Winch for 7ft Tripod
