

# Truck Trailer Edge Protection

## Product Images

## Short Description

---

Reduce the risk of falls when load and working on flatbed trucks and trailers. This portable mini edge protection system is quick and easy to mount. Measuring 2400 mm (L) x 1300 mm (H) in size and weighing approximately 9kg each.

## Description

---

Designed to fit and lock between a wide range of truck trailers combs and tie down rails. The design allows for quick and easy fitting to allow the operator safety when accessing the back of the trucks.

Lightweight frame easily allows 1 operator to lift and position into place.

- Size: 2400mm(L) x 1300mm(H)
- Weight: approximately 9kg each
