The sturdy construction of this tool ensure reliable use time and time again. Pit lid lifters are an Essential tool for underground civil works, drainage, excavation and road works. Jaybro recommend using these lifters in pairs.

What is a Telstra pit lid lifter?

A communications lid, commonly called 'Telstra pits lids' are the concrete lids you see on footpaths throughout Australia. The pit itself allows for technicians to inspect and maintain communication cables. The lid lifter allows for the access to the pit, by inserting the lifter into the access points.

Working on an excavation or underground project?
