

Wheel Barrow - 100L Poly Tray

Product Images

Short Description

Construction Site wheelbarrow with a 100 litre capacity. This tough wheelbarrow features high density poly bucket with steel frame and bracing.

Description

A 100 litre wheelbarrow, manufactured from high density poly material with steel framing. Inflatable tubed type ensures this wheelbarrow is easy to manoeuvre on site.

The strong, durable design provides the greatest performance and will help you get the job done. The poly bucket of the wheelbarrow is UV stabilised to ensure the greatest life. The bucket also utilises a square base for easy loading of bricks and other building materials.

Jaybro is Australia and New Zealand's leading supplier of safety and site consumables to the building and construction industries.
